

Hello,

The current folder contains the experimental data shown in Fig. 3 of the paper.

The folder "(a1)(a2)(a3)" contains the code files for the experiments shown in (a1), (a2), and (a3) of Fig. 3.

The folder "(b1)(b2)(b3)" contains the code files for the experiments shown in (b1), (b2), and (b3) of Fig. 3.

The folder "evaluation metrics" contains the evaluation code for adversarial examples, which is used to calculate the average maximum perturbation intensity and the number of perturbations of adversarial examples generated by PGD.

The folder "experimental images" contains the original input images for the experiment.
