

Hello,

The current folder corresponds to the experimental data in Fig. 7 of the paper.

This folder contains two subfolders. The subfolder named "[SSIM](#)" represents white-box attacks constrained by SSIM, while the subfolder named "[PSNR](#)" represents white-box attacks constrained by PSNR. Each subfolder contains various attack methods, with method names corresponding to file names. For the execution instructions of each attack method, please refer to the "[ReadMe](#)" file within the respective folder.
